Inspired by the gentle changes in nature from season to season - why not create an exciting Chameleon Style Reversible Bedding Ensemble?

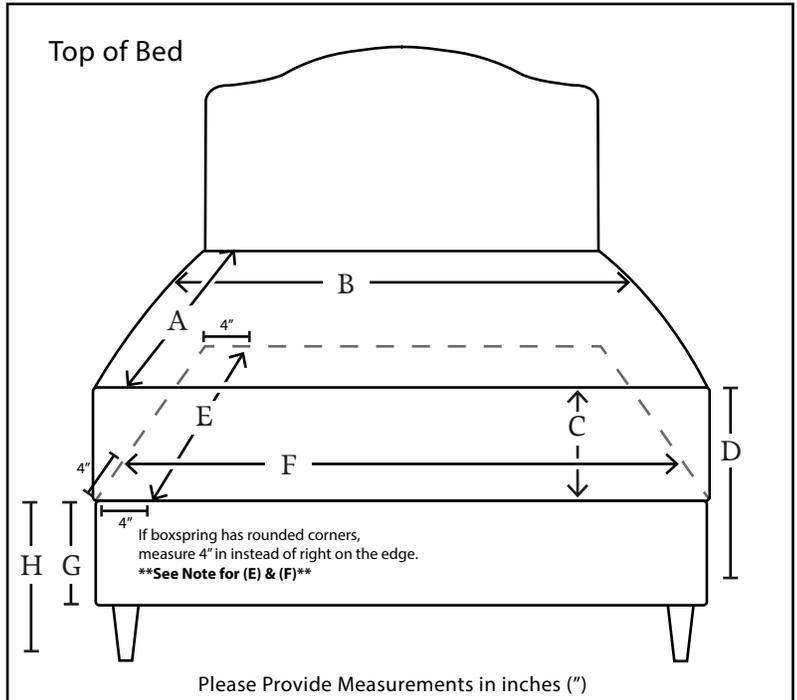

You can have two (or more) entirely different looks for a little more than the price of one.

### Tips for Measuring

Accurate bed measurements are a must for creating a great bedding ensemble. Please fill in the spaces provided.

- Use a metal measuring tape, not a ruler or cloth measuring tape.
- For proper measuring for any style bed covering you select, fully dress your bed with any blankets and sheets you intend to use underneath.
- **\*\* Measuring (E) & (F) \*\*** (the length and width of your boxspring): Boxsprings often have rounded corners, which can take as much as a 1/2" - 1" off the finished length of your bedskirt. To measure more accurately, move your top mattress a little so you can measure from straight edge to straight edge (approx 4" in from the corner of the boxspring).
- The Desired Drop measurement is the length you want your topper (duvet, coverlet) or bedskirt to hang down.

Please provide the actual size of your insert (the tag is not always accurate) - if it is not the exact size you want your finished topper, we can always fake it! We can create a "fill roll" to make up the difference in size.

#### Mattress

- (A) Length \_\_\_\_\_
- (B) Width \_\_\_\_\_
- (C) Height \_\_\_\_\_
- (D) Desired Drop \_\_\_\_\_

#### Box Spring

- (E) Length \_\_\_\_\_
- (F) Width \_\_\_\_\_
- (G) Height \_\_\_\_\_
- (H) Desired Drop \_\_\_\_\_

Actual Size of Insert (For Duvet) Length \_\_\_\_\_ x Width \_\_\_\_\_
